

*IF MAN ONLY KNEW*

*If Man only knew his purpose in this world  
Then he wouldn't have to know how to save it  
Cause his purpose would be to love and live free  
With everyone else who lives in it*

*If he only knew, if he only knew  
If he only knew, if he only knew*

*Do we really think we're going somewhere and  
do we really know how to get there  
I want to clear my throat from all this bad air  
that's coming in from everywhere*

*I want to breathe again pure oxygen  
Just the way it was when the planet began  
Let my lungs be free to take it all in  
And all my cells come alive again*

*If Man only knew his purpose in this world  
Then he wouldn't have to know how to save it  
Cause his purpose would be to love and live free  
With everyone else who lives in it*

*If he only knew, if he only knew  
If he only knew, if he only knew*

*I want to breathe again pure oxygen  
Just the way it was when the planet began  
Let my lungs be free to take it all in  
And all my cells come alive again*
